

# PERSONAL CARE WORKER

This course emphasizes aspects of providing personal and supportive/rehabilitative healthcare to clients needing assistance in their home or other care facilities. Basic knowledge and skills acquired through this course include clients' rights, communication, rehabilitation, positioning and transfer skills, infection control, and safety. Personal Care Worker is a 32-hour course that combines online coursework with a laboratory practice time and a final written exam and skills competency testing assessed under the guidance of a registered nurse.

## Step 1: Apply Online: [northwoodtech.edu/applynow](http://northwoodtech.edu/applynow)

No application fee is required for Personal Care Worker. Before you apply be sure you have the following information available:

- Email address (personal/not high school)
- Campus you wish to attend
- Term you wish to begin your program
- Social security number

## Step 2: Register and Pay for the Program

The Personal Care Worker Program is offered as an online course. Registration for the program begins in April for the fall term and in November for the spring term.
